Dennys, who had been defending the accused and opposing the application, withdrew from the case because of some difference of opinion between him and Mr Ewens. The difficulty is atated in the depositions in the following terms:- Mr Dennys refuses to go on the defence because Mr Ewens intimates that he denies the arrest of the man pointed on as the master of the junk whom Mr Donny states is one of the witnesses for the defence. The statement of fact may be lacid enough for those who know what transpired, but the reason for the refusal to go on with the defence is not so transparent as it might be FRUIT JELLIES, PARISIENS, CAYSTALLISED The case slands adjourned till Tuesday next

WE have received an intimation from Mr A K. Travers, Postmaster General, to the effect that the P. and O. steamer Peninsular is bringing on to Hongkong both the French and English mails.

Ome of the best gatherings of children in connection with Sunday School work in Hongkong was witnessed in Union Church yesterday evening. About a hundred child ren ant down to tea. After the teas concert of sixteen items of songs, recitations and piano solos was given by the scholars. Mo J. Dyer Ball, who occupied the chair, commenced this part of the evening's programme by telling a couple of children's stories, drawing useful lessons from each. This was followed by Master A. Sheffield with a piano solo. Another piano solo, which was undoubtedly a success, was Mice Henderson's rendering of 'The Flower Song.' The other young contributors to the evening's programme acquitted themselves very creditably and helped largely to the entertainment of their fellow scholars. The Superintendent, Mr H. W. Row, deserves to be congratulated upon having such a number of youngsters under his care, and upon keeping the school at the high state of efficiency in which it was left by his predecessors, Dr J. C. Thomson and Mr Skinner,

As already briefly reported the chartered transport Jumna left yesterday afternoon for England via ports of call with military details from Hongkong. The details embarked were as follows :- For Singapore-Lient. D. Paul, R. A. For Colombo-Major C. Purchas, Orduance Store Depirtment, Mrs Purchas, Mrs McComb. For Malta-Major G. T. Kelaart, Lieuts. A. Stockley, J. Quain, W. A. W. Swettenham, and E. L. C. Whitehead; 173 N.C.O.'s and men, 5 women, 8 children, Royal Artillery; 3 Sappers, Royal Engineers. For England .-1 Warrant Officer, 46 N.C.O's. and men, 2 women, 5 children Royal Artillery; Lieut. R. H. Boys, Assistant Surveyor Batchelor, Mrs Batchelor and child, 29 N.C.O's. and men, 7 women, 16 children, Rayal Eugineers; Captains C. Cass and J. G. Forbes, Lieut. R. A. Y. Jordan, Mr W. Godbody, and 222 N.C.O's and men, 1st Battalion Shropshire L.I.; 1 N.C.O. Army Service Corps; Surgeon Major D. O'Sullivan, Army Medical Staff; and 4 N.C.O.'s and men, 1 woman, Medical Staff Corps; Capt. J. Pitt, 1 Warrant Officer, 2 N.O.O.'s and mem. 2 women, 5 children, Ordnance Store Department; 2 N.C.O's. 1 woman, 2 children, Army Pay Corps.

PROBABLY because there are 'no outward

manifestations of unusual activity there is a general impression that the British Naval authorities have relaxed their efforts on Station. This is not the case. The absence of all the cruisers and larger gunboats in the north prevents much display of activity, but we understand the employéeatthenaval yards in Hongkong were never more busily engaged than they are at the present moment, and during the past fortnight work has even at times been kept up night and day. A great amount of Dow preparations being pushed on for keeping up the supplies of Admiral Sir E. Fremantle's squadron in the north. The chartered steamer Taku. belonging to Mesers Jardine, Matheson & Co., which arrived this morning from Shanghai and Swatow, is now lying in the men-of-war anchorage. She is to lost stores and ammunition for the squadron, leaving in time to arrive at Chefoo before the lith inst. Magazines are to be fitted up on board, and work will be kept up to night, to morrow (Sunday) and on Monday, to allow of the ammunition to be put on board as early next week as possible. According to the present arrangements. Admiral Fiemantle Chefoo his headquarters as at first reported—until June of next year, so that Bongkong is to be deprived of its usual visit of the fleet during the winter. All the larger vessels will remain at Chefoo, subject, of course, to emergendes, except the Caroline, Plover. and Pigeon, which are to remain in the neighbourhood of Shanghai,

nobody's business. That in every well-regulated fown at Home water is laid on to homes only of a certain rental, where some guarantee is to be found of a fair treatment of the water service.

That Chinese, with rare emptions, know nothing of the importance of water conservation; and in tenements occupied by a dozen or a score of native sub-tenants no effective supervision can be expected. the use of spwage-contaminated water is dangerous to health. I therefore, recommend that the wells be closed. Mr Francis-Until we have a proper water supply. I an strongly opposed to closing more of these wells than is absolutely essential. A good many of these wells are reported to be contaminated with sewage. Well, the analyst has analysed them andhe refuses to certify them as injurious to health. In certain times of the year it is said these wells are liable to be contamitated with sewage, That is preventible. I think it is a mistake in existing circumstances to fill up any well unless it is actually injurious to health in its present condition. If it is now and again liable to contamination it is surely possible to take measures to prevent the causes of contamination from getting in. Wells of a depth of tenor twelve feet ought to be closed up; is quite true, and it is with the object of others of a greater depth than that, I am told, can be made perfectly eafe, and undoubtedly these wells are useful for trade records of temperature, the number of purposes or in case of fire. Wells that are admittedly unhealthy, shallow, ought to be districts from which the cases come and closed up, and the Permanent Committee other information. This can only be oblast few months; but there are lots of wells that could be rendered perfectly am personally concerned I will give every mafe, and I do not think we have power to

close a well unless the Analytical Chemist certifies that they are dangerous to health and unless somebody certifies that it is likely to assist in spreading an epidemic. I should like to see them all examined by a medical man and an engineer and a report made on each before any order is made closing them up and whether it is posible to under them safe and sanitary.

ISSISTANCE WOR THE WOUNDED. Telegraphic advice reached the foreign lootors here yesterday, to the effect that money would be provided for sanding aid to the wounded, so preparations are being made to open a hospital and have everything in resdiness. The great difficulty is to carry out some workable scheme for immediate attendance on the wounded at the front, and for transporting them to the hospitals. 18 is awful to think of the fate that at present. awaits the wounded in this cold weather. If only the foreign doctors could safely reach them something might be done, but under as most probably foreigners who want to the front would be murdered.
